

## **TECHNICAL DATA SHEET**

## NPT NuPurge Technology Purging Compound 451-05, 451-45, 451-1300

**Product Description** 

NPT NuPurge Technology solves the major problem of removing stubborn residue between color or resin changes. It consists of concentrated purge pellets that react chemically to heat, quickly and effectively cleaning machinery without extra soak time, excess downtime or lost productivity. The resulting purge is so effective that even resin deposits accumulated over long periods are often removed the first time N.P.T is used. While it works well with most resins, it is not recommended for use with acetal or Delrin®. All ingredients are GRAS rated so it is safe to use for food packaging applications.

**Applications** Purging Compoud

Unit Package Description 49 and 1,400 pound boxes

**Generic Description** 

45 & 1,300 pounds
