FOR IMMEDIATE RELEASE

New Hi Temp 1800 mold release/lubricant contains boron nitride

Ideal release for latest high-temperature resins

Wheeling, IL — Now formulated to work at temperatures up to 1800°F, new Slide Hi Temp 1800 can be used as: 1) a paintable, non-silicone mold release; 2) a lubricant for die casting metal; 3) an anti-splatter coating for welding; 4) and a coating/lubricant for easy removal of cartridge heaters and barrel nozzle tips.

A paintable, non-silicone release, Hi Temp 1800 contains boron nitride. It is ideal for the latest high-temperature resins.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.
