Certificate of Registration

Slide Products, Inc. has achieved Registration status for Mold Cleaner 4 to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

Mold Cleaner 4

Category Code: P1

NSF Registration No. 150334

This product is acceptable for use as a mold cleaner or degreaser (P1) for use on mold equipment for plastic parts, where rinsing of the mold equipment is not possible. Before using this product, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not required following the use of this product on hard surfaces, provided that the surfaces are adequately wiped off, so that no visible residue remains. A potable water rinse is required following use of this compound on conditions other than those stated above. The compound must always be used according to applicable label directions.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
