**FOR IMMEDIATE RELEASE**

**Freedom Automatic Spray Unit helps reduce labor**

*Slide Products' "plug and spray" spray unit requires no hard wiring.*

Wheeling, IL – The new Freedom automatic spray unit allows you to increase productivity without increasing labor. It is easy to program and works autonomously from all your equipment. You just plug it in and spray. NO hard wiring is needed.

A proximity sensor placed near the mold cavity detects when the mold opens and signals the unit to deliver release. Nozzles can be attached with brackets or optional magnetic mounting blocks. You are free to position them anywhere to spray release to any point.

The extremely compact control unit has protective rubber feet so it can sit on any flat surface, or it mount directly to the machine. And it can either be plugged directly into any 110V, 15 amp circuit. The Freedom unit comes complete with: easy-to-program control unit, 10-ft spray hose and two nozzles, 6-ft cord and proximity sensor, 5-ft tank hose, and 10-ft power cord.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.
