FOR IMMEDIATE RELEASE

Portable P.D.Q.[®] now makes purging even faster and easier

Pre-measured packets are just tossed into the hopper. No measuring, no waste.

Wheeling, IL — Purging doesn't get any easier than this. Just toss a packet of Portable P.D.Q. concentrated liquid purging compound into the hopper. Then purge.

P.D.Q. is the no soak, no mess, no waste, easy-to-store purge solution. P.D.Q. lets you purge quickly, easily and safely, and at a fraction of the cost of conventional purges for injection, extrusion or blow molding. One product works with all resins.

P.D.Q. is heat stable, non-flammable, non-toxic and almost odorless. It works in the carrier resin to remove all thermoplastics, and is effective for resin to resin and color to color changes. Since it requires no soaking, molders maximize production uptime and do not need to keep "cracked acrylic" purging resin inventory. And the pre-measured, 1-oz. packets make it even easier, getting machinery back on line faster.

P.D.Q. is also available in a unique, self-measuring 32 fl. oz. bottle that "meters out" just the right amount, eliminating waste.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.
