FOR IMMEDIATE RELEASE

New Quick Rust Preventive has ultra-dry formulation

Non-penetrating rust preventive offers up to 2-years protection

Wheeling, IL — New Quick RP Rust Preventive contains no trichloroethylene. It employs a combination of fast evaporating solvents and oils to set up quickly on your mold surfaces, providing immediate protection against moisture and light acids. This unique dry package makes clean-up quick and easy when the mold is put back into production, saving time and money

Quick RP Rust Preventive offers up to 2-years protection, depending on indoor conditions, has no chlorinated solvents, no ozone depleting chemicals, and will not bleed out and mark parts. Its non-silicone, non-wax formulation neutralizes fingerprints and is self-cleaning at start-up.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.
