FOR IMMEDIATE RELEASE

Cost-conscious, environmentally concerned firms can now get mold releases, cleaners, lubricants, rust preventives and more in returnable cylinders

Returnable cylinder program from Slide Products helps you save money while reducing waste, minimizing the impact on the environments

Wheeling, IL — Now there's an economical alternative to using and disposing of aerosol cans. Slide Products now offers a returnable cylinder that lets you buy the product in bulk, and then return the cylinder for a refill. The result is a significant cost savings, as well as a reduction in waste.

Each returnable cylinder holds the equivalent of approximately four dozen 16 oz. aerosols. Almost every Slide product can be obtained in a returnable cylinder, including mold releases, cleaners, lubricants, rust preventive, tapping fluids and more.

The cost-saving cylinders work with automated or robotic equipment, as well as with a hand-held spraying unit. The hand-held sprayer comes with a 10-foot hose and an assortment of spray tips. Additional spray tips with a wide (fan spray) or more restricted spray patterns are also available.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.

For a trial sample of Slide's products and a catalog go to www.slideproducts.com, or contact Slide Products, 1-800-323-6433; Fax: 1-800-756-7986; Email: info@slideproducts.com.
