FOR IMMEDIATE RELEASE

Reduce tap breakage and tool wear with new, improved Slide® TAP-IT® tapping fluid

Formulation is biodegradable and chlorine-free

Wheeling, IL — Improved TAP-IT® tapping fluid, developed for reaming, dressing abrasive wheels and more, is now chlorine-free, silicone-free and biodegradable.

Tools and taps treated with TAP-IT® make better holes, threads, fits and finishes. TAP-IT will enhance productivity by minimizing downtime and helps reduce spoiled parts due to tool breakdown. The result is more efficient manufacturing, making manufacturers more competitive.

Made with all-natural oils, TAP-IT is formulated to produce higher quality threads, faster, with less tool wear and reduced tap breakage. TAP-IT is extremely effective on hard-to-machine metals, including titanium, aluminum, alloys, beryllium-copper alloys, brass, bronze, chrome, magnesium, moly, stainless steel, stellite and more.

Founded in 1953, Slide Products, Inc., an environmentally conscious manufacturer, makes mold releases, cleaners, rust preventives and more.

For a trial sample of Slide's products and a catalog go to www.slideproducts.com, or contact Slide Products, 1-800-323-6433; Fax: 1-800-756-7986; Email: info@slideproducts.com.
