

## TECHNICAL DATA SHEET

## No-Rust Rust Preventive Bulk/Liquid 40201B, 40205B, 40255B

**Product Description** 

No-Rust® is a one-step rust preventive that contains both acid neutralizer and rust preventive. Its non-silicone, non-wax formulation provides positive protection by displacing moisture from metal surfaces and adhering tightly to the surface. It contains no cholorinated solvents and neutralizes finger print acids. Ideal for mold and die protection, it also works on stamping dies, stripper plates, jigs and fixtures, die casting dies, precision instruments, machine tools and machined or ground steel of all kinds. Provides up to 5-years of corrosion protection under normal indoor storage conditions.
