

TECHNICAL DATA SHEET

Penetrant Plus Aerosol 41812M

Product Description

Made with non-silicone penetrating oils that are fortified with PTFE additives to increase the lubrication and flow of the product once its applied. It helps free rusted or frozen metal components due to its highly fluid properties that creep into the molecular level of metal. Displaces moisture and leaves behind a protective film to keep parts lubricated and protected from corrosion. Manufactured to be compliant with the strictest California VOC limits.
