

# TECHNICAL DATA SHEET

## Zero Film Mold Cleaner Bulk/Liquid

45301B, 45305B, 45355B

### Product Description

Zero Film is a single-purpose mold cleaner that is recommended for the final cleaning step on highly polished or A-level mirror finished molds. This formulation includes Acetone as its primary ingredient, and is ideal to use when a strong mold cleaner is needed in shops looking to remove metal polishing compounds or other mold making contaminants. Zero Film is a low-VOC mold cleaner formulation. Zero Film Mold Cleaner evaporates quickly and is NOT for use on painted surfaces.

### Applications

Mold Cleaner

### Unit Package Description

1, 5 and 55-gallon containers

### Generic Description

Mold Cleaner

### Approx. Net Weight Fill per Gal.

7 pounds

### Net Weight Fill

1 - 55 gallons

### Appearance

Colorless Liquid

### Odor

Floral, sweet, acetone

### Flash Point F

Negative 4 degrees

### Flash Point C

Negative 20 degrees

### Base Type

Acetone

### Evaporation Rate

Fast

### HMIS Rating

1, 3, 0, X

### DOT Proper Shipping Name

UN1090, Proper Shipping Name - Acetone, Hazard Class - 3, Packing Group - II

### Removal

Will Evaporate Completely

### Units Per Case

1

### Case Weight (lbs)

Various

### Working Temperature F

32 to 300 degrees

### Working Temperature C

0 to 149 degrees

### Specific Gravity

0.796
